CDMS

Niels Krommenhoek (0982940)

Bart Westhoff (0991807)

User manual

Execute CDMS.py in a preferred IDE. Navigate through the system by pressing any of the given numbers.

```
1. List of users | not ready
2. Check client
3. Add client
4. Modify client
5. Delete client
6. Add a new advisor
7. Modify advisor
```

For example: input 7 and hit enter to modify an advisor.

Disclaimer

Due to retake exams and poor time management we where not able to provide a solid application. We are apologise for our buggy and incomplete application. We will most definitely do better on the retake. I wish you a happy summer break.
